INNOVATIVE SOLAR SOLUTIONS

Powering Life with the Sun

We design and manufacture a unique range of solar-powered products that blend heritage, security, and sustainability. From cultural monuments to modern security systems, our products bring the power of the sun to homes, businesses, and public spaces—without dependency on grid electricity.

Our Solar Product Range

Solar Deepmal – Traditional decorative lamp towers powered by solar energy, ideal for temples, gardens, and cultural spaces.

Solar CCTV – Standalone surveillance system with 24x7 operation, perfect for remote or off grid security.

Solar Mashal – Heritage-style torch lights for pathways, resorts, and public areas. Solar Animal Control Device – Humane deterrent to protect farms, orchards, and property from wild animal intrusions.

Meghadambari of Chhatrapati Shivaji Maharaj – Solar-powered cultural and historic display installations honoring Indian heritage.

100W to 1000W solar power generator
